## **In Your Own Words, tell them ...**

75% of the world's cocoa supply comes from West Africa:

- 12,000 children have been trafficked on cocoa plantations in the Ivory Coast
- Hundreds of thousands of children work in dangerous jobs on cocoa farms
- Many are not able to go to school

You love chocolate, but slavery is wrong.

Ask them to live up to their commitment to help the children on cocoa plantations.

Ask them what they are doing to make sure that the cocoa beans used to make your favorite candy bar were not made by children or slave labor.
